RESEARCH

Mar 2026 – Now	Senior Professional Staff <i>Johns Hopkins University Applied Physics Laboratory, Laurel, Maryland, USA</i>
Jun 2023 – Feb 2026	Associate Professional Staff II <i>Johns Hopkins University Applied Physics Laboratory, Laurel, Maryland, USA</i>
Jan 2023 – Apr 2023	Visiting Researcher <i>European Space Agency (ESA) - ESTEC, Leiden, Netherlands</i>
Nov 2022 – May 2023	Postdoctoral Researcher <i>KTH Royal Institute of Technology, Stockholm, Sweden</i>
Oct 2018 – Nov 2022	PhD. Researcher <i>KTH Royal Institute of Technology, Stockholm, Sweden</i>

EDUCATION

2022	PhD. Electrical Engineering (Focus: Space Plasma Physics) <i>KTH Royal Institute of Technology, Stockholm, Sweden</i> <u>Thesis:</u> "High-speed jets and related phenomena at Earth's bow shock and magnetosheath" <u>Download (English):</u> 📄
2018	MSc. Astronomy and Astrophysics <i>KU Leuven, Leuven, Belgium</i> <u>Thesis:</u> "Processing Solar Images to Forecast Coronal Mass Ejections using Artificial Intelligence" <u>Download (English):</u> 📄
2016	BSc. Physics <i>National and Kapodistrian University of Athens, Athens, Greece</i> <u>Thesis:</u> "Solar Energetic Particles: A study of their properties through measurements from ESA's SREM instrument." <u>Download (Greek):</u> 📄

LEADERSHIP, SUPERVISION & MANAGEMENT

2021 – Now

Mission, Instrumentation, Science, & Working Group Teams

- IMAP Mission (NASA) - Member of the Science Team (2025 – Now)
- NASA's Center for Geospace Storms (CGS) - Working Group Lead of the Magnetosphere Data Analysis group (2025 – Now)
- Plasma Observatory (ESA) - Contributor, Science Multi-point Working Group, and member of the Science Consortium; named contributor to the Mission Assessment Study Report (Yellow Book) (2025 – Now)
- SMILE Mission (ESA/CAS) - Member of Science Working Team & The Modeling Working Group (2023 – Now)
- MMS Mission (NASA) - Member of Science Working Team & the Energetic Particle Detector (EPD) instrument team (2023 – Now)
- MMS Mission (NASA) - Member of the Electric Double Probe (EDP) instrument team (2023)

2025 – 2029

GEM Focus Group Leader

- Main organizer and leader of NSF Geospace Environment Modeling (GEM) focus group [🔗](#)
- The topic is Multiscale Dayside Transients (MDT) and their Effect on Earth's Magnetosphere and our team is planning to organize for 4 years, a series of meetings, sessions, and activities to integrate dayside phenomena into our magnetospheric modelling efforts. More information can be found online on the Wiki page [🔗](#)

2023 – Now

Paneling, SOC, LOC, Convening & Chairing

- Co-Convener on NSF 2026 SHINE Workshop on "Shock Waves and Energetic Particles Across the Heliosphere".
- Panelist on Topical Discussion Meeting (TDM) on "Scientific Outlooks for the Analysis of Space Weather Data in the Age of AI" at European Space Weather Week 25 on October 30 2025. [🔗](#)
- Lead organizer of the "Workshop in Machine learning, Data Science, and Data Assimilation in Geospace *LMAG25*" in JHU/APL, US October 13-17, 2025 [🔗](#)
- Panelist and evaluator as a subject matter expert (SME) of the 2025 BLAST challenge at JHU/APL on the topic of *Space Weather Resilience* " [🔗](#)
- Member of the Scientific Organizing Committee (SOC) for the "10th MMS anniversary - 11th MMS community workshop" in Paris, France May 12-14, 2025 [🔗](#)
- Primary convener, and chair of the session "Collisionless Shocks in Heliospheric and Astrophysical Plasmas and their Effects on Planetary Magnetospheres" at American Geophysical Union (AGU) general assembly 2024 [🔗](#), 2025 [🔗](#), and 2026
- Co-convener, of the session "Collisionless shocks and associated transient phenomena at Earth and beyond" at European Geophysical Union (EGU) general assembly 2024 [🔗](#)
- Co-convener, of the session "Dayside mesoscale transients and their impact on the magnetosphere and ionosphere" at American Geophysical Union (AGU) general assembly 2023 [🔗](#)
- Primary convener, and chair of the session "Dayside transient phenomena and their effects on planetary magnetospheres" at European Geophysical Union (EGU) general assembly 2023 [🔗](#)

2023 – Now

Mentoring & Supervision

- Co-supervisor of Graduate student Anusree Padinjarethadathil Devanandan from University of New Hampshire [🔗](#)
- Mentor for the First-time Presenters Feedback Program of American Geophysical Union (AGU) general assembly 2025 [🔗](#)
- Mentor for the GEM workshop meeting program for 2025 [🔗](#)
- Mentor of the summer internship program CIRCUIT of Johns Hopkins University [🔗](#)
- Mentor for the European Geophysical Union (EGU) general assembly 2023 [🔗](#)

2022 – Now

Early Career Leadership Advisory Committee *American Geophysical Union (AGU)*

- 2024 - Now: Chair of the Early Career Leadership Advisory Committee (EC-LAC) of the Physics and Aeronomy (SPA) section [🔗](#)
- 2022 - 2024: Member of the Early Career Leadership Advisory Committee (EC-LAC) of the Physics and Aeronomy (SPA) section [🔗](#)

GRANTS, FUNDING & SCHOLARSHIPS

- MMS Early CAREER grant 2025: Kinetic Processes and Particle Energization of Downstream High speed Jets using Magnetospheric Multiscale mission (**PI**). Funding Acquisition: \$125,000
- JHU/APL R&D Fellowship: Modern Data Analytics for Magnetospheric Mission, Ground-Based, and Simulation Data (**PI**). 0.5 FTE | 2 years (2023 - 2025).
- NASA - ROSES2024: DEMO-ML: DisEntangling Magnetosheath Observations for a ML-ready dataset (**Co-I**). Funding Acquisition: \$90,000
- GEM - NSF 2022: Explorative Global-To Kinetic-Scale Modeling of Collisionless Shocks Using Physics-Informed Data Mining and Machine Learning (**Contributor/Collaborator**)
- Additional competitive travel and research support, total approx. \$15,000

TEACHING

Full Description & Examples: [🔗](#)

2019 – 2023

Teaching Assistant (TA) & Lecturer

KTH, Royal Institute of Technology

2022: Guest Lecturer | Collisionless Shocks | PhD course

2022 – 2023: Guest Lecturer | Space Physics I | Master course (EF2240) [🔗](#)

2021 - 2022: Guest Lecturer & TA | Space Physics I | Master course (EF2240) [🔗](#)

2020 - 2022: TA | Electrical Circuit Analysis | Bachelor course (EI1110) [🔗](#)

2020 - 2021: TA | Space Physics I | Master course (EF2240) [🔗](#)

2019 - 2022: TA | L^AT_EXworkshop | Bachelor course [🔗](#)

2019: TA | Electrodynamics | Bachelor course (EI2405) [🔗](#)

Developed topical specialized lectures (workshops):

- Applied Machine Learning in Heliophysics | 2 hours of theory + 2 hours of hands-on applications, including a set of assignments
- Multi-Spacecraft Techniques and Collisionless Shocks | 2 hours of theory + 2 hours of hands-on applications, including a set of assignments

2013 – 2015

Teacher - Mechanic & Waves (High School)

City of Athens, Social Tuition Center of City of Athens

Assisting High school students with their studies in school and preparation for the Panhellenic National examinations to proceed to higher education.

SCIENTIFIC REVIEWING, EDITING & COMMUNITY SERVICE

2022 – Now

Proposal Reviewer

- NASA Heliophysics Heliophysics Supporting Research (HSR)
- NASA Heliophysics Guest Investigator Open (HGIO)
- NASA Heliophysics Living with a Star Science (LWS)
- NASA Solar System Science (SCUBED)
- NASA Science Mission Directorate Single-Source (SMDSS)

2024 – Now

Journal Editorial Board

- Discover Space - *Nature Springer*

2021 – Now

Journal Reviewer

- Science Advances - *AAAS*
- Physical Review Letters (PRL)- *APS Journals*
- AGU Advances - *AGU/Wiley*
- Geophysical Research Letters (GRL) - *AGU/Wiley*
- Journal of Geophysical Research (JGR): Machine Learning and Computation - *AGU/Wiley*
- Journal of Geophysical Research (JGR): Space Physics - *AGU/Wiley*
- Earth and Space Science - *AGU/Wiley*
- Radio Science - *AGU/Wiley*
- Annales Geophysicae - *EGU/Copernicus Publications*
- The Astrophysical Journal Letters (ApJL) - *Institute of Physics (IOP)*
- The Astrophysical Journal (ApJ) - *Institute of Physics (IOP)*
- Astronomy and Astrophysics - *EDP Sciences*
- Frontiers in Astronomy and Space Sciences - *Frontiers*
- Journal of Plasma Physics - *Cambridge Press*
- Astrophysics and Space Science - *Springer*
- Advances in Space Research - *Elsevier*
- Remote Sensing - *MDPI*
- Universe - *MDPI*
- Journal of Experimental & Theoretical Artificial Intelligence - *Taylor & Francis*

More information: Web of Science Profile 

2024 – Now

Conference Presentation Judge

- Geospace Environment Modeling (GEM) workshop, held 22-27 June 2025 in Des Moines, Iowa, US - Student Poster Judge
- European Geophysical Union (EGU) meeting, held 27 April - 2 May 2025 in Vienna, Austria - Outstanding Student and PhD candidate Presentation (OSPP) Judge
- American Geophysical Union (AGU) meeting, held 9-13 December 2024 in Washington, DC, US - Outstanding Student Presentation Awards (OSPA) Judge
- The Triennial Earth-Sun Summit (TESS), held 7-12 April 2024 in Dallas, TX, US - Student Poster Judge
- Geospace Environment Modeling (GEM) workshop, held 23-28 July 2024 in Fort Collins, CO, US - Student Poster Judge
- 2025 GEM / CEDAR joint workshop, held 23-28 July 2025 in Des Moines, Iowa, US - Student Poster Judge

2021 – Now

MMS Scientist In The Loop (SITL)

SITL service work for the NASA MMS team for orbits: 1181 - 1183, 1204 - 1206, 1248 - 1250, 1284 - 1285, 1314 - 1315, 1364 - 1365, 1404 - 1407, 1600 - 1601

SCIENTIFIC PRESENTATIONS

2026

“What Science Can We Do with The L1 Spacecraft Fleet?” *SHINE 2026 Workshop* Madison, Wisconsin, USA, July 02, 2026. (**Invited Scene Setting talk**) |  

“Reinforced Shock Acceleration Across the Solar System and Beyond” *SHINE 2026 Workshop* Madison, Wisconsin, USA, June 29 - July 02, 2026. (*poster*) |  

“Recent Advancements in Transient Processes and Particle Energization at Collisionless Shocks” *Magnetospheric Multiscale (MMS) Science Working Team (SWT) Meeting* Embry-Riddle Aeronautical University, Daytona Beach, FL, USA, June 23, 2026. (*talk*) |  

“Compressive Structures in the Foreshock of Collisionless Shocks” *Magnetospheric Multiscale (MMS) Science Working Team (SWT) Telecons* Online, May 2, 2026. (*talk*) |  

“Stormtime Plasma Sheet Recent, Ongoing, & Future efforts” *6th CGS Team Workshop* Johns Hopkins University Applied Physics Laboratory, Maryland, USA, January 21, 2026. (*talk*) | 

2025

“Modeling Earth’s Plasma Sheet using Machine Learning” *AGU 2025 Fall Meeting* New Orleans, LA, USA, December 19, 2025. (*talk*) |   

“Compressive Structures in the Foreshock of Collisionless Shocks” *AGU 2025 Fall Meeting* New Orleans, LA, USA, December 17, 2025. (*poster*) |   

“The Role of Shock-Generated Transients in Particle Acceleration at Planetary Bow Shocks” *AGU 2025 Fall Meeting* New Orleans, LA, USA, December 15, 2025. (**Invited talk**) |   

“Magnetosheath Jets and Foreshock Transients Contribution to Particle Energization at Collisionless Shocks” *Cluster-Plasma Observatory Workshop* Paris, France, October 20, 2025. (**Invited talk**)

“Machine Learning Applications on Earth’s Magnetotail” *LMAG 2025 Workshop* Johns Hopkins University Applied Physics Laboratory, Maryland, USA, October 17, 2025. (*talk*) | 

“Shock Generated Transients and their Effects on Earth’s Magnetospheric Environment” *LWS Meeting, NASA Goddard* Maryland, USA, September 12, 2025. (**Invited talk**) | 

“Storm-Time Plasma Sheet Convection: Global Patterns and the Dynamics of Mesoscale Bursty Flows” *IAGA 2025* Lisbon, Portugal, September 01, 2025. (*talk*) | 

“Particle Acceleration and Transient Processes Upstream of Planetary Bow Shocks” *IAGA 2025* Lisbon, Portugal, September 01, 2025. (**Invited talk**) | 

“Evaluating plasma sheet properties with insitu observations and machine learning -

Recent advancements and limitations” *GEM 2025* Des Moines, Iowa, USA, June 27, 2025. (*talk*) | 

“Modeling Earth’s Plasma Sheet using Machine Learning” *GEM 2025* Des Moines, Iowa, USA, June 26, 2025. (*talk*) | 

“Multi-mission Observations of Relativistic Electrons and High-speed Jets Linked to Shock-generated Transients” *MMS Community Meeting* Paris, France, May 13, 2025. (*talk*)

“Revealing an unexpectedly low electron injection threshold via reinforced shock acceleration” *EGU 2025* Vienna, Austria, May 01, 2025. (*talk*)

“Understanding stormtime geospace as a complex, coupled system: Recent progress from the Center for Geospace Storms” *EGU 2025* Vienna, Austria, May 01, 2025. (**Invited talk**) | 

“Dayside Transients and Their Effect on the Magnetosphere” *SMILE SXI Science Team Workshop, JHU/APL* Maryland, USA, February 12, 2025. (*talk*) | 

“Advancements on AI for Heliophysics and Space Weather” *AI for Space Applications, ASAP project meeting* Stockholm, Sweden, January 28, 2025. (**Invited talk**) | 

2024

“Advances in Understanding Stormtime Magnetotail Dynamics ” *AGU 2024 Fall meeting* Washington DC. US December 8 - 13 2024 (**Invited talk**) |   

“Plasma Sheet Convection During Storms: Global Statistical Patterns and Mesoscale Bursty Flows” *AGU 2024 Fall Meeting* Washington, DC, USA, December 08, 2024. (*talk*) |  

“Electron injection threshold and acceleration processes at Earth’s foreshock transients” *AGU 2024 Fall Meeting* Washington, DC, USA, December 08, 2024. (*poster*) |  

“Plasma Sheet Convection During Storms: Global Patterns and Mesoscale Bursty Intervals” *CGS workshop, JHU/APL* Maryland, USA, November 18, 2024. (*talk*)

“Shock Kinetic Processes and Particle Energization” *First Plasma Observatory Community Workshop* Agenzia Spaziale Italiana (ASI), Rome, Italy, November 12 - 14, 2024. (*talk*) |   

“Stormtime Observations of Plasma Sheet Convection” *COSPAR 24* Busan, South Korea, July 14 - 19, 2024. (*talk*) |   

“Relativistic Electrons Energized by Reinforced Shock Acceleration” *COSPAR 24* Busan, South Korea, July 14 - 19, 2024. (*talk*) |   

“Plasma Sheet Magnetic Flux Transport During Geomagnetic Storms” *GEM 24* Fort Collins, CO, US, June 23 - 28, 2024. (*talk*) |  

“Modeling Earth’s Plasma Sheet Using Machine Learning” *GEM 24* Fort Collins, CO,

US, June 23 - 28, 2024. (*talk*) |  

“Reinforced Shock Acceleration of Relativistic Electrons” *GEM 24* Fort Collins, CO, US, June 23 - 28, 2024. (*talk*) |  

“Evaluating the magnetic flux transport in the plasma sheet during geomagnetic storms using MMS and Geotail” *EGU2024* Vienna, Austria, April 14 - 19, 2024. (*talk*) |   

“Heliophysics Education and Research using Cloud Computing” *EGU2024* Vienna, Austria, April 14 - 19, 2024. (*talk*) |   

“Magnetic flux transport in the plasma sheet during geomagnetic storms using MMS” *TESS2024* Dallas, TX, US, April 07 - 12, 2024. (*talk*) |   

2023

“Transient phenomena in foreshock, shock, and magnetosheath – Expectations from large separation campaign” *MMS SWT 23* Washington DC, US October 22 - 26, 2023. (*talk*) |  

“Discovering patterns, imbalanced classification & boundary surfaces in Heliophysics with artificial neural networks” *DASH23* Johns Hopkins University Applied Physics Laboratory (JHU/APL), MD, US October 9 - 11, 2023. (*talk*) |  

“Characterizing Earth’s Magnetosheath and High-Speed Downstream Jets using Machine Learning” *LMAG23* Johns Hopkins University Applied Physics Laboratory (JHU/APL), MD, US August 21 - 24, 2023. (*talk*) |  

“High-speed downstream jets: relevance to bow shock dynamics & evolution” *IAGA23* Messe Berlin – City Cube, Berlin, Germany, July 11 - 20, 2023. (**invited** *talk*) |   

“Multi-mission observations of a high speed jet associated to a solar wind discontinuity” *EGU2023* Vienna, Austria, April 23 - 28, 2023. (*poster*) |   

“High-speed jets at Earth’s magnetosheath & more” *CGS weekly meetings* Laurel, US, January 18, 2023. (*talk*) |  

2022

“Investigation of magnetosheath jet kinetic structure and plasma moment derivation” *AGU 2022 Fall meeting (AGU2022)* Chicago, US, December 11 - 15, 2022. (*poster*) |  

“On the discrepancies of magnetosheath jet identification and statistical properties due to different temporal resolution and plasma moment derivation” *44th COSPAR Scientific Assembly (COSPAR2022)* Athens, Greece, July 16 - 24, 2022. (*talk*) |  

“Magnetosheath Jets using MMS” *Swedish Space Plasma Meeting 2022* Umeå, Sweden, June 8 - 9, 2022. (*talk*) |  

“High-speed plasma jets generated by the cyclic behavior of the Earth’s bow shock” *Solar Orbiter School 2022* Sete, France, May 30 - June 3, 2022. (*poster*) |  

“Shock Reformation Generating High-speed Magnetosheath Jets” *EGU2022* Vienna,

Austria, May 23 - 27, 2022. (*talk*) |   

“High-speed Downstream Plasma Jet Generated due to Shock Reformation” *8th MMS Community Workshop* Daytona Beach, FL, US, May 9-13, 2022. (*talk*) |   

2021

“Super-magnetosonic Downstream Jet Formation as a Direct Consequence of Shock Reformation” *AGU 2021 Fall meeting (AGU2021)* New Orleans, US, December 13 - 17, 2021. (*poster*) |   

“Characterization of the Earth’s Magnetosheath and its Fast Plasma Flows Using Upstream Measurements and Machine Learning” *Asia Oceania Geosciences Society (AOGS) 18th Annual Meeting* Online, August 1-8, 2021. (*virtual talk*) |   

“Magnetosheath Jets Close to the Bow Shock: Generation Mechanisms Using MMS” *The 15th Hellenic Astronomical Conference* Patras, Greece, July 5 - 8, 2021. (*talk*) |    

“Fast Plasma Flows Downstream of the Bow Shock Using MMS: Correlations and Generation Mechanisms” *EGU2021* Vienna, Austria, April 19 - 30, 2021. (*Virtual PICO*) |    

“Differentiating Between Convective and Nested Structures With a Single Spacecraft” *Swedish Space Plasma Meeting 2021* Kiruna, Sweden, February 1 - 2, 2021. (*talk*) |  

“Magnetosheath jets using MMS: classification and generation mechanisms” *43rd COSPAR Scientific Assembly (COSPAR2021)* Sydney, Australia, January 28 - February 04, 2021. (*talk*) |    

“Magnetosheath Jets Close to the Bow Shock | Generation Scenarios using MMS” *mini-GEM - Collisionless Shock Group* Online January 19, 2021. (**invited** *virtual talk*) |  

2020

“Investigation of Different Types of Magnetosheath Jets and their Origin using MMS” *AGU 2020 Fall meeting (AGU2020)* San Francisco, US, December 01-12, 2020. (*Virtual talk*) |    

“Jets Downstream of Quasi-parallel and Quasi-perpendicular Bow Shock” *MMS FALL SWT 2020* Online October 08, 2020. (*Virtual talk*) |  

2019

“Classification of Magnetosheath Jets using Neural Networks, Solar Wind Observations and High-resolution IMF Measurements” *Sixteenth European Space Weather Week (ESWW16)* Liege, Belgium, November 18-22, 2019. (*poster*) |  

“Creation & Classification of Magnetosheath Jet Database using Magnetospheric Multiscale (MMS) mission” *Sixteenth European Space Weather Week (ESWW16)* Liege, Belgium, November 18-22, 2019. (*poster*) |  

“Classification of Magnetosheath Jets using Neural Networks and High Resolution OMNI (HRO) data” *Machine Learning in Heliophysics* Amsterdam, Netherlands, September 16-20, 2019. (*talk*) |   

“Deep Learning Applications in Space & Solar Physics” *Solar Physics Summer School at*

Raman Science Center Leh, India, June 10-16, 2019. (poster) | 

“Investigation of Quasi-parallel & Quasi-perpendicular Magnetosheath Jets Using Magnetospheric Multiscale (MMS)” *EGU General Assembly 2019* Vienna, Austria, April 7-12, 2019. (talk) |   

“Difference between Quasi-parallel & Quasi-perpendicular Magnetosheath Jets Using MMS” *SRS (Svenska Rymdforskarens Samarbetsgrupp) 2019* Gothenburg, Sweden, March 14-15, 2019. (poster) | 

“Quasi-parallel & Quasi-perpendicular Magnetosheath Jets Using MMS” *Swedish Space Plasma Meeting 2019* Uppsala, Sweden, February 7-8, 2019. (talk) |  

2018

“Processing Solar Images to forecast Coronal Mass Ejections using Artificial Intelligence” *Fifteenth European Space Weather Week (ESWW15)* Leuven, Belgium, November 5-9, 2018. (poster) |   

DISTINCTIONS, AWARDS & MERITS

2026 – 2028

ISSI International Team 677

International Space Science Institute, Bern, Switzerland

Early-career researcher of ISSI team “Impact of Dayside Transients: A Comparative Terrestrial-Planet Perspective”. 

2023

Springer Nature 2022 Astronomy Highlight

Springer Nature, Berlin, Germany

Our work “Downstream high-speed plasma jet generation as a direct consequence of shock reformation” has been featured as one of the nine articles of 2022’s highlighted research in Astronomy. 

2022 – 2024

ISSI International Team 555

International Space Science Institute, Bern, Switzerland

Early-career researcher of ISSI team “Impact of Upstream Mesoscale Transients on the Near-Earth Environment”. 

2023

Outstanding contribution - ESA Cluster mission

European Space Agency (ESA) - ESTEC, Leiden, Netherlands

Recognition of outstanding contribution to the Cluster mission

2019 – 2022

ISSI International Team 465

International Space Science Institute, Bern, Switzerland

Early-career researcher of ISSI team “Foreshocks Across the Heliosphere: System Specific or Universal Physical Processes?”. 

2016 – 2018

Student Representative – Committee of Msc. Astronomy and Astrophysics

KU Leuven, Leuven, Belgium

Student representative in the faculty committee of the Master of Astronomy and Astrophysics - Permanente Onderwijscommissie (POC).

SKILLS

Languages Greek (Native), English (Excellent), French (Good)

Programming Python, MATLAB, R, C++, IDL, SQL

Software L^AT_EX, git, Inkscape, ParaView, VisIt
ML tools Pytorch, Tensorflow, Keras, Scikit-learn, SciANN
